

# Smart Doorbells

(Ring / Nest)

## **Replacement or new installation?**

Installing a brand new Smart Doorbell is evaluated on sight by the tech, we have to run wiring

## **Is it the "Original Ring Doorbell"?**

If so, take it out of the package and take out the USB. Charge it so that the technician can test the Original Ring Doorbell after the installatiaon and before they leave.

Ring Two and Ring Deluxe are hard wired and no charging is necessary.
